

MORE LIGHT ON  
INSURANCE WAYSMutualization of Companies  
is ExposedTREMENDOUS SALARIES PAID TO  
THE OFFICERS.First Session of New York Legislative  
Investigating Committee Brought  
Out Some Figures.

NEW YORK, Sept. 6.—Interesting evidence regarding the "mutualization" of insurance companies and the salaries paid officials of some of the companies was given before the legislative committee which began its hearing today. The wholesale casting of proxies at the elections of officers was told of by several leading men in the insurance world while as to the salaries paid the evidence of a few of the witnesses was of a startling character.

Robert A. Grannis, first vice president of the Mutual Life Insurance company, was called as the first witness. He testified that he was a director of the United States Mortgage and Trust company and of the Lawyers' Trust company.

Higher counsel for the committee, quoted from the charter of the Mutual Life Insurance company, the policy holders in the election of officers and other administrative rights, and had the by-laws of the company identified and placed on the record.

Vice President Grannis testified that there had been only one case in the last five or six years of votes cast by proxy in the Mutual Life Insurance company's elections. He estimated that President Richard A. McCurdy of the Mutual, and himself, held about 20,000 proxies.

Attorney Hughes asked who was general manager of the Mutual and received the reply that this position was filled by Robert S. McCurdy, son of the president of the company.

Walter C. Oakman, himself a trustee of the Mutual, who testified that he had served as inspector of the elections in question, was asked how he knew that the election was not a sham. In reply he said that there was no examination of credentials, no presentation of policies or any other way of certifying the right of a prospective voter to cast his ballot.

GERMAN EMPEROR  
STILL IS HARPING  
ON "YELLOW PERIL"

NEW YORK, Sept. 6.—Congressman McNary of Massachusetts, who was a member of the American party received yesterday by Emperor William, is quoted in a Times dispatch from Berlin as follows:

"In our conversation the emperor dwelt on the 'yellow peril' and expressed the opinion that the Japanese would follow up their military successes by closing the 'open door' and by their command of cheap labor force Europe and America out of the Oriental markets."

"He went on to say that it was necessary for white nations to stem the yellow peril by uniting. The only power that Japan feared was America and it was a good thing for the world that the United States was on one side of the Japanese empire."

The emperor asked us what we thought of German railways. We said frankly that we believed the American lines were better. The Kaiser assented but said he thought German cities were better paved than those of America."

RAILROADS AND  
REFRIGERATIONINTERSTATE COMMERCE BODY  
HAS GRANTED DELAY.

Replies Made by Santa Fe and Other  
Companies to the Charge of  
Discrimination.

WASHINGTON, Sept. 6.—The Armour-Car Lines company has been granted by the interstate commerce commission an extension until September 10th in which to file its answer to the inquiry concerning rates between refrigerator lines and railroads.

The time in which to answer, as set originally, expired yesterday and the reply that this position was filled by Robert S. McCurdy, son of the president of the company.

George C. McKim, president of the United States Mortgage Trust company, who had acted as a Mutual election inspector during the two hour election period, to tell him whether the officers presenting themselves were entitled to vote.

The amounts of salaries paid to officers of the New York Life Insurance company were given by John C. McCall, secretary of that company. He said that he was a son of President John A. McCall of the New York Life; that the day after he graduated from Harvard in 1899 he went to work for the New York Life Insurance company at a salary of \$2500 a year as assistant secretary, and that he now received \$14,000.

The president's salary, he said, was \$100,000. The salaries of the vice presidents were \$25,000, \$35,000 and \$40,000, and for the three second vice presidents \$50,000, \$21,000 and \$18,000 respectively. There were, McCall said, about 25,000 proxies in the office of his company, made out in the names of the president and vice president.

ARMENIAN-TARTAR  
FIGHT IS RAGINGNews From Baku Region Is  
of Gloomy KindRUSSIAN TROOPS UNABLE TO END  
THE STRIFE.Oil Industry is Practically Ruined—  
Murder and Pillage Rampant—  
Fighting at Kishineff.

ST. PETERSBURG, Sept. 7, 2:50 a.m.—The news from Baku received up to the time of the filing of this dispatch is of the gloomiest character. The Armenian and Tartar warring factions now appear to be entirely beyond control.

The streets of Baku seem to be unsafe for the inhabitants and the force of troops to be inadequate to restrain the anarchical tendencies of the combatants in the surrounding region.

According to reliable reports, the troops have been forced to withdraw from the suburb of Balakhan, where on Tuesday the rioters set fire to the oil works, and that place is now in the hands of the Tartars, who have completed the work of destruction, and who, it is said, massacred the inhabitants who did not accompany the troops in their retreat.

Telephonic and railroad communication between Baku and the suburban oil centers are cut and late last night it was reported that the wires into Baku from the Caucasus has dispatched reinforcements of troops from Tiflis, but owing to the conditions throughout the whole of the southern part of the Caucasus, with these reinforcements the troops will be inadequate to cope with the situation.

In the suburban region the fight is desperate and the soldiers are using artillery.

Representatives of the oil industry here are actively despondent and they declare that on the basis of the telegrams so far received more than half of the industry in the Baku region has been wiped out and that the fire is making rapid inroads into the remainder of the oil territory.

The Baku representative of a prominent company has telegraphed to his St. Petersburg headquarters as follows: "It is no longer a question of saving our property but one of getting out alive."

A press dispatch from Baku, approved by the censor, says: "The rival factions are concentrating in their quarters here. The situation is exceedingly tense. Murders are frequent. Cannibalism is heard from time to time. In the Moslem quarter the patrols have been fired upon. Balakhan is on fire and the Armenians are surrounded by armed villagers, apparently Tartars, and the cannonading there is unceasing."

NOTHING CERTAIN  
ABOUT THE FIGHT

Nolan Says Nelson will not  
be in Ring with Jeffries

MANAGER COFFROTH SAYS THE GO  
WILL TAKE PLACE.The Dane's Manager Insinuates There is  
Collusion Between Britt and  
the Boilemaker.

SAN FRANCISCO, Sept. 6.—"I have never objected to Jeffries on the score of dishonesty, but on account of the change in the betting I thought that there might be collusion between Jeffries and the Britts."

Such was the statement made tonight by Billy Nolan, manager of Battling Nelson. Nolan prefaced this remark with the statement that he was firm in his refusal to allow Nelson to go in the ring next Saturday if the heavy champion is to be the referee and added that Nelson will abide by any decision that his manager may make.

Nolan declared that Nelson never made the statement attributed to him today that any referee, except Billy Roche, would be agreeable to him.

Nolan said: "I was perfectly satisfied to have Jeffries act as referee him and George Siler, but changed my mind with events that followed. When Jeffries was decided upon it was agreed by Britt, the club and myself, that the referee was to be in this city five days prior to the fight. When Jeffries did not arrive here according to the program, but instead sent a telegram to the club demanding \$2000 for his services, I considered that we were entitled to another man, particularly as the betting had dropped after Jeffries was named."

Then when Britt's brother sent a telegram to Jeffries, signing Billy DeLaney's name to it, and Britt opened the answer to DeLaney accepting it, it strengthened my belief that there was something wrong. Britt's brother denied that he had sent such a telegram, but I offered to waive my objection to Jeffries if Britt could prove that he did not communicate with the referee. He could not prove his denial."

Nolan said that Nelson would be prepared to enter the ring Saturday on time, but would not appear in the arena if Jeffries were the umpire. Club Manager Coffroth tonight stated that at 2 o'clock Saturday Britt and Jeffries would be in the ring.

So the situation stands and no one is prepared to say what the outcome will be, especially as no further conferences between the disputing parties have been arranged.

FOREIGN ADVICES.

PARIS, Sept. 6.—Following the report from the French cable company's representative at Caracas, Venezuela, to the effect that President Castro intended to carry out the direction of the courts adverse to the company, a protest was lodged with the office here and the latter asked the French legation at Caracas for a report on the status of the affair. Pending the receipt of this report no action will be taken. The company says Venezuelan cables continue working without interruption.

BERNE, Switzerland, Sept. 6.—The strike in the canton of Korschach made a violent demonstration today, partially destroying the laundry and sacking a hotel where Alsatian workers who were replacing strikers were housed. The government of the canton of St. Gall has called out a battalion of Landwehr, which has adopted severe, repressive measures.

CHATEAU BRIENNE, Department of Aube, France, Sept. 6.—The American military mission here today and army maneuvers arrived here today and are received with imposing military honors by General Brugere, and his staff and the assembled troops. General Brugere warmly greeted Lieutenant General A. R. Chaffee and other members of the American party and introduced them to the officers of the French general staff.

Deaths of a Day.

SAN DIEGO, Sept. 6.—News has been received here of the death of General Thomas T. Crittenden of this city, at East Gloucester, Mass. General Crittenden was a distinguished veteran of the Civil War, 70 years of age. For several months he has been suffering from illness. He was the father of H. B. Crittenden of this city and Mrs. Commander Akerman, U. S. A.

PHILADELPHIA, Sept. 6.—William A. Gill, formerly a district superintendent of the Western Union Telegraph company with headquarters in this city, died today, aged 58 years. He entered the employ of the Western Union company as a messenger.

Brady, a pioneer, is dead at his home in the city. He located the first sawmills at Benicia and Marysville and was active in mining and business circles. He served two terms as recorder of Nevada county and was several times elected a city trustee. He came to California in 1849.

Woodland Races Are Off.

WOODLAND, Cal., Sept. 6.—The proposed race meeting for Woodland has been called off. C. A. Spencer, who has been promoting the event, was unable to secure enough entries among the horsemen attending the State Fair to insure the success of the meeting. The best horses will be taken to Oregon or to Los Angeles immediately after the close of the State Fair.

Webster Trial Expensive.

AUBURN, Sept. 6.—The superintendents today fixed the tax rate at 2.20. The Webster trial cost the county \$10,000 and necessitated the raise of the rate.

NOTHING CERTAIN  
ABOUT THE FIGHTNolan Says Nelson will not  
be in Ring with JeffriesMANAGER COFFROTH SAYS THE GO  
WILL TAKE PLACE.

The Dane's Manager Insinuates There is  
Collusion Between Britt and  
the Boilemaker.

SAN FRANCISCO, Sept. 6.—"I have never objected to Jeffries on the score of dishonesty, but on account of the change in the betting I thought that there might be collusion between Jeffries and the Britts."

Such was the statement made tonight by Billy Nolan, manager of Battling Nelson. Nolan prefaced this remark with the statement that he was firm in his refusal to allow Nelson to go in the ring next Saturday if the heavy champion is to be the referee and added that Nelson will abide by any decision that his manager may make.

STANFORD MAKES  
NEW REGULATIONWHICH MAY EXCLUDE MANY WHO  
WOULD ENTER.

Acting President Branner Talked to  
Freshmen of the Dangers of  
College Fraternities.

STANFORD UNIVERSITY, Sept. 6.—A new regulation that will affect the graduates of a number of high schools and private preparatory schools in California and other states from which Stanford university draws its students, was announced today from the office of the registrar of the university.

Many of Stanford's most prominent men have in the past come from Portland, Ore., and as the new rule will interfere with every preparatory school in Portland it is feared that many good men will now turn from Stanford to other universities where entrance is easier.

The reason for putting this new regulation into practice is to maintain the policy of the university toward a small student body.

Dr. John Casper Branner, acting president of the university, today delivered the annual address to the incoming students what they were getting into. At Stanford a most serious talk in regard to the future conduct in the university. He spoke at some length on the extravagance of some college men and women indulged in and in this connection he handled the college fraternity and sorority situation without gloves.

He denounced the practice of washing men from the train to the club house and enrolling them before they knew what they were getting into. At Stanford the competition has become so keen that the only way in which the weaker and less desirable fraternities can maintain themselves is by carrying the freshmen off their feet and forcing them to join before they have an opportunity to look over the field, and which crowd is best suited to them.

BRITISH WORKERS  
NOT IN FAVOR OF  
CHAMBERLAIN'S PLAN.

LONDON, Sept. 6.—The attitude of labor towards Joseph Chamberlain's fiscal policy was emphatically attested by a vote at today's session of the trades union congress, which is holding its annual meeting at Henley. By a vote representing 1,238,000 members, against 26,000, the congress declared for free trade, asserting that "any departure therefrom would be detrimental to the interests of the working classes, upon whom the burden of protection would press the most heavily."

DR. SALMON RESIGNED  
AS CHIEF OF BUREAU  
OF ANIMAL INDUSTRY

WASHINGTON, Sept. 6.—Dr. David E. Salmon, chief of the bureau of animal industry, department of agriculture, has tendered his resignation and it has been accepted to take effect immediately upon the appointment of his successor. The resignation was announced by Secretary Wilson but he declined to state whether the severance is due to the charges recently filed against Dr. Salmon, of which the doctor was exonerated. While the announcement was made that the resignation was purely voluntary there is a well authenticated rumor that President Roosevelt was not satisfied with the conditions shown by the investigation.

## German Butchers Lack Meat.

BERLIN, Sept. 6.—A convention of 2000 butchers from all parts of Germany met here today and adopted resolutions declaring that a great and increasing scarcity of live animals exists in the German empire and petitioning the imperial government to specify the abolition of the meat famine by opening the frontiers for the admission of animals from other countries.

PAT CROWE WAS  
HANDY WITH GUNALLEGED KIDNAPER SHOT AT THE  
POLICE OFFICERS.

Omaha Officers Saw Him in Saloon But  
He Made His Escape by  
Shooting.

OMAHA, Sept. 6.—During a running fight between police officers and a man believed to be Pat Crowe, the alleged kidnaper of Eddie Cudaly, and a companion, just before midnight tonight, Patrolman Albert Jackson was shot through the leg and the two men made their escape. None of the other officers were injured. A large detail of officers was immediately sent to the spot to try to locate the fugitives.

The fight occurred in lower Sixteenth street where the men were discovered by Officer Jackson in a saloon.

Ever since Crowe returned to Omaha several weeks ago, Chief Donahue has had force of officers, most of them in citizens' clothing, seeking and capturing him. This task was extremely difficult because none of the officers know Crowe, Jackson being an exception. It was learned by the police yesterday that Crowe was in Omaha and extra efforts were made to locate him. Jackson and Officer Leahy were sent to lower Sixteenth street where Crowe was believed to be.

About 11 o'clock tonight Jackson saw a man whom he recognized as Crowe with a companion in a saloon at Sixteenth and Dorcas streets. He sent Leahy to a telephone to secure additional officers, meantime watching the man himself. The man left the saloon just as a car carrying additional officers came up and Jackson started to follow them. Seeing that they were being followed the two men opened fire on Jackson, emptying their revolvers, one bullet breaking Jackson's leg. The other officers started in pursuit, joining in the fusillade of shots being fired by the fugitives. The latter, however, made good a temporary escape.

Half of the police force was sent to the district in which the shooting occurred and put to work to locate and arrest the pair. This they had not been successful in doing at midnight.

FRUIT BOX MARKS  
UNCONSTITUTIONALLEGISLATIVE ENACTMENT KILLED  
BY SUPREME COURT.

Requirement That Place of Growth be  
Marked on Packages Interferes  
With Liberty.

SAN FRANCISCO, Sept. 6.—The Supreme court has declared unconstitutional the law which provided that all boxes and packages of shipped fruit must bear in inch high letters the name of the county and immediate locality where the contents were grown.

The provision was ostensibly aimed at stopping the shipment of bad produce from localities famous for excellent products, but was really in the interest of certain sections that have won good reputations without necessarily having surpassed other parts of the state in producing fine fruit.

The court holds that the law is unreasonable and in rendering its decision against the statute says:

"It has come to be a well recognized fact that the liberty and pursuit of happiness in which the individual is protected by the constitution of the United States and of the state, applies fully to his right of contract, his right to follow a legitimate vocation untrammelled by unnecessary regulations, as it does to the freedom of arrest or a restraint of his person."

## THE WEATHER.

SAN FRANCISCO, Sept. 6.—Thunderstorms continue in Utah and Southern Nevada. Cloudy weather is reported in the Sierra. Rain has fallen at Tatooch. Slightly cooler weather prevails in California with fog along the coast from Point Reyes to Point Sur.

San Francisco and vicinity: Cloudy Thursday, with fog in the morning, fresh south winds changing to westerly. Los Angeles and vicinity: Cloudy Thursday, fresh west winds. Sacramento valley: Fair Thursday, possibly showers in the foothills and mountains, light west winds.

Coast: Fair Thursday, except fog in the morning; light northwest winds.

PEACE ENVOYS IN  
THE METROPOLISBy Special Trains From  
Boston to New YorkTHOUSANDS GAVE VERY CORDIAL  
GREETING TO WITTE.

Baron Komura and Party Heard Chorus  
of "Banais" From Japanese  
Throats.

BOSTON, Sept. 6.—Both the Russian and Japanese plenipotentiaries, together with the members of their respective missions, left Boston today in special trains, bound for New York. Crowds of people had assembled at the South station and as the trains passed out bearing the Russians about 1 o'clock and that of the Japanese two hours later, enthusiastic demonstrations occurred.

Witte responded to the cheers by appearing on the rear platform and making a brief speech through Rojevstevsky. He gave expression to the pleasure which his journey had accorded, his thanks at the display of the greeting and his regret that he must leave so soon.

Baron Komura, with several members of the Japanese mission, visited Harvard university during the day and was entertained at luncheon at the Colonial club at Cambridge. At the railroad station the Japanese departed amid cheers from the Americans present and a chorus of "Banais" from a large body of their fellow countrymen.

NEW YORK, Sept. 6.—Thousands of persons greeted the Russian peace envoys when they arrived at the Grand Central station this afternoon at 5:35 o'clock on a special train from Boston. There took place a great demonstration when they left the train and hurried to the St. Regis hotel, where they will remain while in this city.

Witte, accompanied by Baron de Rosen, walked from the train to the waiting carriages and it was only through great efforts of the police and secret service that the passage was cleared. Both envoys immediately doffed their hats continually at the cheers of the crowds.

The Russian plenipotentiaries and the members of their party will be lavishly entertained while in this city.

The Japanese envoys arrived tonight at 8 o'clock on a special train from Boston. Baron Kaneko, Japanese confidential representative here, with his secretaries and two sons of Japanese students, was at the station to greet the envoys. Another great crowd was on hand to cheer the returning plenipotentiaries and secret service men, city detectives and a heavy guard of uniformed police had to make a way for the Japanese party.

The Russian envoys spent the evening quietly in their hotel. Witte may make a flying trip to Washington on Saturday as he is especially anxious to see the capital. Monday will be spent in this city and on Tuesday Witte and his party will sail for home.

SALT LAKE ROAD  
PLANS FAST TRAIN  
TO MORMON CAPITAL.

LOS ANGELES, Sept. 6.—November 1 is the date on which the San Pedro, Los Angeles and Salt Lake railroad expects to inaugurate its new fast through train between Los Angeles and Salt Lake City. The schedule time will probably be twenty-six hours, subsequently to be cut to twenty-four hours. Close connections will be made with the other lines at Salt Lake and through standard and tourist sleepers will be carried for Chicago, Denver and Kansas City.

GRAND OPERA SEASON  
TO BE MOST BRILLIANT  
IN NEW YORK'S HISTORY.

NEW YORK, Sept. 6.—Heinrich Conried, director of the Metropolitan opera house, who has returned from Europe, says the coming opera season will be one of the most brilliant ever witnessed in New York. Among the new singers will be: Fraulein Lina Abarnell, a soprano of the Berlin, Vienna and Budapest theaters; Maren, a Munich soprano, and Bardiero, a soprano from Vienna.

CHICAGO SCHOOLS  
BEAT ALL RECORDS  
IN LARGE ATTENDANCE.

CHICAGO, Sept. 6.—More than 247,000 children thronged through the open doors of Chicago's public schools yesterday and began the work of a new year. The first day's attendance last year was in round figures 235,000. More than forty different nationalities were represented. A large increase in attendance in the domestic science, household arts and manual training classes was recorded. It is estimated that the total increase in these branches of learning will be 3000.

Yellow Fever on Isthmus.

WASHINGTON, Sept. 6.—According to the summary of yellow fever conditions in Panama as compiled by the Isthmian canal commission there were sixteen cases and two deaths from the disease on the canal zone during the month of August. There were fourteen cases and five deaths during this time in the republic of Panama, making the total on the isthmus for the month thirty cases and seven deaths.

Chicago's Shipping Record.

CHICAGO, Sept. 6.—All records for the tonnage for vessels clearing from the District of Chicago in one month were broken in August, when 1206 ships of all kinds, with a registered tonnage of 1,289,953 tons, departed. During the same period 1202 vessels, with a tonnage of 1,280,302 tons, arrived.

SAN FRANCISCO.—Wheat easier; December \$1.32 1/2 bid. Barley easier; December \$0.46 bid. Corn \$0.50 bid. \$1.40 bid. \$1.40 bid. \$1.40 bid.

## THAT \$50 VETOED

CITY OFFICIALS WOULD BE LIABLE  
FOR IT.

W. C. T. U. Will Not Get Appropriation  
As Charter Makes No Pro-  
vision for It.

In spite of the order of the Board of Trustees last Tuesday night allowing the W. C. T. U. another \$50 toward the expenses of the coming state convention to be held here, the ladies will not get the money. This is the result of a conference yesterday between the mayor, the city attorney and the city clerk.

Yesterday afternoon, Mrs. M. F. Norwood, the chairman of the finance committee of the W. C. T. U., called at the city hall to get the second donation of \$50, the first one having been cashed some time ago.

Mayor Lyon was on hand, and having in mind the many statements about the legality of the appropriation, called up the city attorney, Mr. Ewing, at the meeting the night before had stated that there was nothing in the charter—by way or the other about the matter.

"I would like to know," said the mayor, "whether I can sign this bill against the city for \$50?"

"Certainly you can," replied the man of the law.

"I couldn't the city appropriate \$10,000 for some society to come here, then?"

"I could," said Ewing. "But if some citizen came up with a protest against the appropriation, you would have to dig up and make the city good to the amount of \$50 of the \$10,000."

The mayor made a rapid mental calculation as to what his share would be if the board took a motion to advertise the city appropriating advertising money for the "Royal Arch," the "Loyal Temperance Legion" and any other bodies that might have conventions here, and decided that in spite of prosperity he couldn't stand the strain. He therefore directed the city clerk to withhold the warrant.

Mrs. Norwood expressed her opinion that no citizen would raise any objection to the city's giving the convention the \$50. In fact, she was willing to go down that if the mayor was sued for the money, to make good his share.

"But, madam," protested the mayor, "the city attorney tells me this appropriation would be illegal."

"There are lots of illegal things done here," remarked Mrs. Norwood, "and this might just as well be done when it is in a good cause."

The clause of the charter which makes the city officials liable for a violation of a strict construction of the appropriation power, section 258, reads as follows:

"Every officer who shall approve, allow, or pay any demand on the treasury not authorized by law, ordinance, or this charter, shall be liable to the city individually and on his official bond for the amount of the demand so illegally approved, allowed or paid."

Mayor Lyon stated yesterday that he had not refused to allow the bill through any disrespect to the board, but that as he had had legal advice upon the matter that possibly the board had not, he felt that he must protect himself.

What will happen about that first \$50 which the W. C. T. U. has already in its coffers, no one can say.

## RAIN IN KANSAS

### BOOSTED PRICES

WHEAT WAS FREELY BOUGHT BY  
PIT TRADERS.

More Precipitation Predicted For To-  
night in Minnesota and the  
Dakotas—Other Markets.

CHICAGO, Sept. 6.—The wheat market opened firm, initial quotations on December being unchanged to 1/2c higher, at 81 1/2¢ to 81 3/4¢. The firmness was apparently due to heavy rains throughout Kansas, which led to good buying by commission houses and pit traders during the first hour. In consequence the market gained slightly in strength, December touching 81 3/4¢. The small upturn did not hold and a reaction ensued, December declining to 81 1/4¢. Renewed demand, however, from the leader of the bulls was followed by a complete recovery.

The market was strengthened by shorts who bought on weather bureau predictions of general rains tonight in Minnesota and the Dakotas. Another factor that contributed to the strength late in the day was the advance of 1c a bushel in the price of cash wheat about the close. Private reports from the Northwest telling of small yield and poor quality of new wheat helped to create bullish sentiment. For December the highest point of the day was reached at 82 1/4¢. The market closed strong with December up 1/2¢ at 82¢.

Rain throughout the Middle West improved prospects to the corn market. The market closed at the highest point of the day, December closing 1/2¢ up at 20 1/2¢.

Fair demand from shippers and elevator concerns caused firmness in the oats market. December closed 1/4¢ up at 20 1/2¢.

Provisions were weak as a result of a 10c decline in the price of live hogs. Outside buyers were free sellers. At the close October pork was off 1/2c, lard down 1/2c and ribs were 1/2c lower.

San Francisco Grain.—Wheat easier; December 81.32 1/4 bid.  
Barley easier; December 90 1/2 bid.  
Corn, large yellow, 81.40 to 81.42 1/2.  
Bran, 82.50 to 82.50.

San Francisco Cheese.—Butter: Fancy creamery, 26; seconds, 22.  
Cheese: Eastern 15 to 16; Young American, 11 1/2 to 12.  
Eggs: Ranch 25 to 32; store 18 to 23; Eastern 18 to 25.

Dried Fruit Prices.—NEW YORK—Evaporated apples quiet but firm in the absence of important offerings. Common to good 4 1/2 to 6c, prime 7 to 7 1/2c; choice 7 1/2c and fancy 8c.

Prunes quiet, quotations ranging from 4 1/2 to 7 1/2, according to grade.  
Apricots also quiet, choice 8 to 8 1/2c; extra choice 8 1/2 to 8 3/4c; fancy 9 1/2 to 10c.  
Peaches easy, spot held at 11 1/2c.  
Raisins firmer. Loose muscatels 3 1/2 to 4c; seeded raisins 3 1/2 to 4c, and Long-Johns at 2.00 to 2.15.

## THE CIRCUS SYSTEM

AN EXAMPLE OF REMARKABLE  
ORGANIZING CAPACITY.

No Street Parade for Barnum & Bailey,  
But a Free Exhibition Preced-  
ing the Show.

Barnum & Bailey's No. 3 advertising car was in the city yesterday and a small army of bill posters and lithographers were busy recovering the bill boards and brightening up the gaily colored circus paper in the store windows. This will be the last advertising car to visit the city before the coming of the big show, Thursday, September 14th.

According to W. D. Coxey, one of the agents of the show, the Barnum & Bailey circus will prove a revelation to local show-goers.

"There are many interesting features of the big show," said Mr. Coxey, "that the public never sees. The paraphernalia is impressive in its magnitude, and the performance sends the crowd away filled with wonderment, but the motor power behind the big show and the marvelous organization that makes its operation possible is not in evidence to that part of the people which sees the performance and the magnificent exhibitional features, and nothing else."

"The Barnum & Bailey show employs the services of nearly eleven hundred men and women; it requires eighty-four cars to transport it from city to city; its staff of agents embraces a dozen men who are paid salaries equal to those received by a bank president; it has four advertising cars, and nearly a hundred men are engaged in posting the bills and spreading the tidings of its coming."

"It spends a quarter of a million dollars every year for printing; its newspaper bills aggregate another hundred thousand dollars; it maintains a press bureau with five newspaper men to keep in touch with the public through the press; it employs over 300 high salaried performers; it maintains a spectacle at an average expense of \$10,000 a day; it comes into town at day break, puts up twelve acres of tents, plays to from 15,000 to 20,000 spectators, and the next day is doing the same thing a hundred miles away; it carries its own commissary department, feeds its hundreds of employees in great dining tents as well as as generously as a first-class hotel, and far more expensively; handles through its ticket wagons and financial department from \$50,000 to \$15,000 every day and costs \$5,000 to \$7,000 every day it runs."

"How is it done? This is the question that the observer who gets on the inside of the great institution for the first time naturally asks. The answer is simple. It is a system of marvelous organization, it is true, but so is the machine that runs like the well-oiled wheels of an intricate machine. And the motor power behind it all—the man who makes the machinery go and who keeps the most delicate parts in working order—is James A. Bailey."

"The Barnum & Bailey show exhibits its magnitude and system in other ways. It is the only show that provides tents for the transaction of its financial business, for the manager and for the staff of bookkeepers and auditors. There is also a press tent for the use of the newspaper men. Every ticket is a coupon ticket, and everyone who buys a ticket for the show is insured a seat. Standing room is never sold. There are three kinds of seats, a grand stand chair, a slap-down reserved seat and a general admission seat. The latter all have foot-rests which means double expense to the show—a double number of boards and a double force of men to handle them."

"The performance is given on a colossal scale, and the menagerie is immense. A dozen different exhibitions are given for the price of one admission, and every way one turns there is something suggested by the magnitude and broad gauge character of the great show.

There is no parade this year—the show has become too big to make a street procession necessary or desirable, but this is compensated for by a remarkable free exhibition which is given on the show ground prior to the opening of the doors, afternoon and evening. The show also presents a remarkable new act this season. The most discussed act is the Dip of Death, in which a young French woman loops the loop in an automobile. This is undoubtedly the arena sensation of the year.

### ANDERSON CASE SETTLED.

A Court Airing of the Affair Shut Off  
By \$140,000.

The E. E. Anderson case will not be aired in court, as a settlement has been made with Anderson. Anderson got a judgment against Stanton L. Carter, for \$75,000 for the loss of his hand. The case was appealed and was in the higher court for three years. In the meantime interest at 7 per cent brought the total up to nearly \$100,000.

After the Supreme court had affirmed the judgment and while a motion for rehearing was pending, A. J. Hudson bought Anderson's interest in the judgment for \$15,000. He then had the judgment, his attorneys having the other half. Anderson's interest was about \$7,000.

After the rehearing was denied, Anderson claimed that an unfair advantage had been taken of him, and coming to Fresno he retained Stanton L. Carter to represent him. The result has been that the whole matter has been compounded by Anderson's receiving \$140,000 additional, making \$29,000 as his total share in the judgment.

Tonight's Band Concert.  
The program to be given by the Fresno Military Band at the concert in the park, tonight is as follows:

Part I.  
March, "Deed of the Pen".....Moret  
Medley, Overture, "Bits of Renick"  
"Lifts".....Lampe  
Romance from Zelmira and Azor.....Spahr  
Waltzes, "Hearts Courageous".....Blanke  
Saxophone Quartet.  
"Pilgrim's Chorus" from Li Lombardi.  
Part II.  
Indian Characteristic, Navajo.  
Intermezzo, "Gondolier".....Towell  
Medley, Waltz, "Here's to My Pal"  
March, "Magnet".....Losey

## CHILD'S AWFUL FALL

TUMBLING FROM 50-FOOT PLAT-  
FORM OF WATER WORKS.

Was Terribly Bruised and Several Bones  
Were Broken, But  
Still Lives.

HANFORD, Sept. 6.—Bertha Froesch, a child, fell headlong from the water works tower this afternoon, a distance of fifty feet, and while frightfully bruised and mangled was not killed. The little girl, who is a daughter of Mr. and Mrs. J. Froesch, was playing on the fifty-foot platform, when suddenly, without warning, the fall flooring gave way. Her body was picked up by Miss Bessie Tucker and Mr. Webber, who reside nearby, and when taken to the lodging house, kept by Mrs. Tucker, it was found that she still lived, but was frightfully bruised and several bones were broken.

The attending physicians can not yet state the exact nature of her injuries. The parents of the little girl were summoned and were overcome with grief at the sight of their mangled little one. She will not be removed to her home until tomorrow, if she lives.

The city treasurer today received a check for \$5000 from Andrew Carnegie, which makes a total of \$6000, already received for the library.

Mr. and Mrs. H. F. Rinehart were passengers this morning for San Francisco. They will be absent several weeks.

P. Kerr Higgins of the Home Telephone Co. was in Hanford today and at the next meeting night of the Board of City Trustees will petition for a franchise to construct and operate a telephone system in this city.

H. G. Lacey stated today that arrangements have been completed by him with the San Joaquin Power Co., whereby he will furnish the new town of Corcoran with electric light and power. The work will commence as soon as material can be put on the ground.

The Supervisors today approved Pad-dock districts' \$2500 school bonds.

Dr. R. W. Musgrave and family have returned to Hanford, having been absent for a number of weeks at Pine Flat.

### RHOADES CASE DISMISSED.

Witnesses Declared Seine Went Only  
Part Way Across River.

The examination of J. Rhoades, the fishmonger, on a charge of seining fish on Kings river in a manner contrary to law, failed yesterday. The examination was held before Justice A. G. Smith at Lodi, Assistant District Attorney Barbour going down to prosecute.

The law against seining provides that when seines are used they may extend but a third of the way across the stream. There was but one witness to testify that Rhoades' seines went clear across. Several witnesses thought that the lines went clear across, but that the net extended but a part of the way through the river. So the case was dismissed.

Interned Lena Making Ready.  
VALLEJO, Sept. 6.—The Russian cruiser Lena will leave here Saturday for San Francisco to be docked, painted and scraped. She then will return for three days to the navy yard to take on her guns and ammunition. About September 20th she will sail for Vladivostok. The wives of her officers now here have been granted permission to return on the ship with their husbands to Russia.

## CALIFORNIA GEOGRAPHY

Should be studied by every citizen of California. It should be taught to the children, both in the school-room and in the home, as a matter of first importance. One of the easiest ways to learn California Geography is to secure one of the Fresno Republican's New Home Wall Charts. It will give you an excellent topographic relief map of California with statistics on elevations and irrigations. It will also give you a political map of the state of California, showing every county, river, railroad, town and city in the state. It also gives the population of every county, city, town and village, according to the latest government census, and this is not all. It shows you a splendid map of the United States, the Panama canal and history and statistics, it also gives you a special topographic map of Eastern Asia, Japan and the Island of Sakhalin. Also gives you a special map of the Philippines, Hawaii, Porto Rico, and to add to the beauty and usefulness of these charts, we give you in beautiful colors the flags of all nations. These all make a most convenient and useful reference aid to the business man, lawyer, doctor, teacher, or any other intelligent citizen. Every office, library or home should have one of these excellent library wall charts. You can obtain one of these wall charts by subscribing or continuing the paper for six months and paying extra express charge of 20 cents. Any further particulars, address the Wall Chart Dept., Fresno Republican, Fresno, Cal.

in giving the news.

## Mr. Emory R.

Johnson, author of "American Railway Transportation," says:

"In most passenger trains there are more seats vacant than occupied, the average number of passengers per train in the United States being only 42. Over many routes an increase of 50 per cent in the number of persons carried would add little or nothing to the expenses of operation."

This is the condition of most manufacturers; an increase of 50 per cent in their volume of business would be almost all net profit.

How is he to get this additional business? Certainly not in the way he has secured the business he already has, because times are changed, conditions are more stringent, and life is short.

If this manufacturer makes an article which is bought by women, or used in the home, he can talk to the purchasing agents of a million American homes, through the columns of THE LADIES' HOME JOURNAL.

If there is enough additional business in his line in the country, and he keeps up his advertising long enough, he can get that 50 per cent increase.

**TALK NO. 49**  
**Children's Eyes**

If parents generally only realized the importance of knowing the condition of their children's eyes before starting them to school how much suffering both mental and physical would be spared them and their children. Many children in school get credit for being leggers and drones when the cause is simply eyestrain, and consequently a drain upon their nerve force. Such children rarely ever persevere to even a high school education. This continuous eyestrain, too, often develops serious diseases of the delicate membranes and tissues. If you bring your child here we will tell you honestly the condition we find; if there is a defect correctable with glasses we can fit them properly and at a fair price. If treatment is required we'll send you to a physician. If the eyes are normal you'd like to know it and we'll tell you so. We are building this business on the "Golden Rule" plan because it is the best plan to build upon.

## JAPANESE ARE DISCONTENTED

PRESS AND PEOPLE VIEW THE PEACE GLOOMILY.

Partial Details Given Out Lead to Comment Indicative of Desire to Rebel.

TOKIO, Sept. 6, 10 a. m.—Rioting broke out here last night (Tuesday) in connection with the dissatisfaction over the result of the peace settlement. There were several clashes with the police and it is estimated that two were killed and 500 wounded. The rioting ceased at midnight. Police stations were the only property destroyed.

TOKIO, Sept. 5, (delayed in transmission).—The first turbulence attendant on the popular anger over the terms of peace arranged with Russia, took place today. A mass meeting to protest against the action of the government was called to take place at Hibiya park, but the metropolitan police closed the gates, and attempted to prevent the assembly of the people. The municipality protested against the action of the police, and finally the gates were thrown open and a large crowd gathered and voted in favor of resolutions declaring the nation humiliated, and denouncing the terms upon which the treaty of peace was arranged. The crowd was serious in its conduct, rather than angry, and the police handled it discreetly. The gathering eventually dispersed in an orderly manner.

Later on, however, a crowd attempted to hold a meeting in the Shintomi theater and the police dispersed it. A portion of the crowd then proceeded to the office of the "Kokumin Shinbun," the government organ, and began shouting. Three employees of the paper armed with swords appeared at the door of the building and checked the attack, and the police again dispersed the crowd. It was thought that the trouble had passed, when suddenly a portion of the crowd made a rush at the building, looting stores and damaged some of the machinery. Several persons were injured during the attack, but the police eventually cleared the streets of the crowd and arrested a number of the rioters. The disorder is not general, and the situation is not serious.

Similar meetings have been held at Asaka and Nagoya, which in round terms denounced the government and asked it to resign. The general sentiment throughout the country seems to favor reactionary measures, but it appears clear that the majority of the people will eventually accept the result of the peace conference, however disappointing it may be.

TOKIO, Sept. 1, (delayed in transmission).—The Kokumin is the only metropolitan daily paper that defends the terms of the peace settlement. The paper declares that the purpose of the war has been accomplished and says: "The war has not been fought to gain money. Russia has been stripped of the control of Manchuria and driven sufficiently north. More than the aim gained by our recognized enemy in Korea, every reason exists to thank our delegates and feel especially grateful for the good offices of President Roosevelt."

The Nichi Nichi calls the result an insult to the nation. The Jiji says it already has expressed discontent, but now that the die has been cast, it hopes the government will make adequate provision to care for the thousands of families bereft of their breadwinners and also for the veterans who have been permanently crippled. The Nippon pronounces the peace which has been concluded the bitterest dose the nation ever was compelled to take. It advises the people to take a lesson from it and gain wisdom and strength to prudently prepare against a similar contingency in the future.

Count Okuma, leader of the Progressive party, in assessing the settlement, said he was unable to reconcile himself to the result, because the conditions preventing Russian aggression in Korea, and Manchuria were insufficient. "They leave," he said, "an open road for Russian ambition in the future. The conditions prevailing before the war are liable to repetition at any time. Both nations agree to evacuate Manchuria; but if China is unable to maintain order there, Russia will have an opportunity to sow seeds of war, instead of enjoying peace for a future dispute. It leaves the conditions exactly as before hostilities began."

Sept. 1, 6 p. m., (delayed in transmission).—The press telegrams outlining the peace terms are further inflaming the sentiment against the settlement. The radicals and hotheads continue to urge the various expedients to express the popular disapproval. There have been no violence and no scenes of turbulence, although as a precautionary measure, the police reserves have been increased. The police are carefully watching the developments of the situation, and the force will be doubled should any violence occur. If it does, its speedy suppression is assured.

The government continues silent. The conservative element predicts that the country will approve the settlement, when its conditions are thoroughly understood. They declare that the present

**Knowledge is power.**

**J. A. FOLGER & CO.**  
San Francisco  
ESTABLISHED 1880

agitation does not represent either the ultimate sentiment of the people or a sufficiently strong minority to merit serious consideration.

Possibly public opinion will become more definite when the government informs the people of the actual results of the Portsmouth conference. There has yet been no information given out regarding the final adjustment of the most serious issues.

Telegrams from Kobe, Nagoya, Osaka, Kanazawa, Himeji, Kioto and Tokonoa express popular dissatisfaction and denounce the peace settlement. The radical newspapers have thrown off all restraint and pronounce the peace settlement the greatest humiliation the country has ever suffered. They even advise a refusal to ratify the treaty, through various expedients.

Few flags are appearing in the capital. In some instances where enthusiastic citizens have displayed flags their neighbors have advised their removal. The higher middle classes, including commercial and financial men, remain strangely silent, their disappointment is evident. The general market, reflecting the attitude of depression, declined sharply at the opening today and trading was sluggish.

The bulk of the people continue apathetic while the hostility of the radicals grows.

Sept. 2, (delayed in transmission).—Baron Shibusawa, discussing the peace settlement, declares his dissatisfaction with the terms, but says the Korean and Manchurian problems have been settled and the purpose of the war realized. "The terms are of inadequate value," he says, "and the extent of peace imperfect and unsatisfactory. Still, Japan secures paramountcy in Korea." Baron Shibusawa does not believe the financial basis of Japan will be endangered by failure to secure indemnity; he has strong confidence in Japan's productive power and enterprise, he said.

"Let them be applied to the development of railways, mines and other industries of Korea. This is not the time to brood over the past and look for future gloom, but it is the time to seize the advantages the future holds. Commercial and industrial depression following in the wake of an unsatisfactory peace is a result that cannot be stopped, but it is most unwise to give ourselves to despair over an issue which none can alter."

A news agency quotes a prominent general as expressing disgust over the outcome of the peace terms. He declared that the war was not fought for the purpose of securing indemnity. He says Japan has the power to fully recompense herself for the cost of the war by industrial and commercial development.

Sept. 2, 3 p. m., (delayed in transmission).—Under a vigorous defense by the conservative journals supporting the government, a fuller and better appreciation of the situation confronting the country, public sentiment is showing some evidence of reaction. The argument that it is impossible for Japan to continue the bloody war merely for the purpose of securing indemnity is proving effective in allaying dissatisfaction. It is believed that when the government is free to explain fully the conditions of the settlement and the logic appertaining to them, the reaction of sentiment will largely increase.

The entire nation is keenly disappointed at the outcome. Nowhere throughout the empire has there been a step taken toward the celebration of the conclusion of peace. The radicals continue their campaign against the government, demanding the punishment of those responsible for the compromise. The forthcoming diet is certain to be turbulent, and it is predicted that the Katsura government will be forced from office.

The declines in the market and the unsatisfactory crop conditions, coupled naturally with the indignities of the government, have created a fever in some quarters that a financial depression and unsatisfactory business conditions are impending.

A prominent banker said today to the Associated Press correspondent that the Tokyo exchange was an inaccurate barometer of real conditions, as lately the exchange transactions have been largely speculative. The August settlement was the largest in the history of the exchange. The recent decline, he said, was the result of conditions within the exchange, and not a correct reflection of general conditions.

The banker added:

"There is plenty of money in the country, and undoubtedly, we will weather any difficulty which may occur."

"The repatriation of the army will occupy at least ten months, there being in round figures a million of all arms and in every department. This will cost many millions more. The government may seek a domestic loan but the depression and depression over the result may show that the people are unwilling to subscribe. However, the government possesses considerable money and probably will manage the matter without embarrassment. I believe that much of the present agitation will pass away when the people appreciate the conditions. We win more than we started in to fight for, and occupy a highly satisfactory position before the world. The cabinet and other statesmen acted wisely, although it is probable that public sentiment will blindly demand that somebody be sacrificed. Knowing the temper and expectations of the people, the government has shown wonderful and commendable courage by stopping the war."

Sept. 2, (delayed in transmission).—An official report says: "The Japanese army attacked the Russians at Choyongtuyang on September 1. The Russian forces consisted of four battalions, six guns and several hundred cavalry. The district was mountainous and difficult, but finally the Japanese artillery successfully attacked the Russian left and occupied their position at 9 in the morning. The Russians strongly resisted west of Choyongtuyang, but were forced to retire at 11 o'clock. Another Japanese detachment defeated the Russians at Haniokokai and pursued them. Japanese casualties were one officer killed and five officers and sixty men wounded. The Russians left forty dead on the field."

YOKOHAMA, Aug. 30.—The peace terms are not known exactly, but it is rumored that the abandonment of the indemnity will cause general and profound disappointment. There have been no demonstrations. The people are quietly awaiting the official announcement of the treaty.

TOKIO, Sept. 2, (noon) delayed in transmission.—An official report announces the complete and crushing defeat of the remnant of the Russian forces after nine hours' severe fighting at Naibon on the west coast of the island of Saghalien. The Russian killed number 139. The casualties of the Japanese were slight.

## ARMY VETERANS MARCH IN LINE

PARADE WAS BIG FEATURE OF THE ENCAMPMENT.

Three Hours Occupied in Passing the Reviewing Stand—Some Incidents of the Day.

DENVER, Sept. 6.—The main event of the Grand Army encampment, speaking from the view point of the rank and file, was the grand parade which occurred today. To the veteran the privilege of again marching in step with comrades of the same rank is one for which no hardship seems too great to undergo, no ordeal too severe to undertake. Many who marched the two miles today were exhausted when the end was reached and many others, weakened by age, fell out of line long before the journey was completed. These tottering old veterans, regretting their inability to march in the parade and giving every evidence of their feelings, would be cared for by persons nearest at hand, led to a place where they could rest and recover from their exhaustion. It was a common sight to see a gray haired old soldier sitting on the curbing gazing wistfully at his more sturdy comrades as they passed him by.

The ovation given the marchers was unstinting. The streets were packed with people and the windows and roofs of the buildings along the line of march swarmed with humanity. The cheering was continuous and the grizzled old warriors were kept busy bowing acknowledgments and raising their hats in courteous salute.

The column formation for the great parade was as follows:  
Platoon of mounted police.  
George W. Cook band and drum corps.  
Grand Marshal Colonel George E. Randolph and staff.  
Commander-in-chief John R. King.  
Chief of Staff J. C. Murphy.  
Senior Vice Commander G. W. Patterson.  
Surgeon General W. R. King.  
Adjutant General J. E. Gilman.  
Junior Vice Commander E. B. Stillings.  
Judge Advocate General O. L. Moore.  
Chaplain in Chief J. H. Bradford.  
Colonel in Charge J. H. Bradford.  
Assistant Quartermaster General J. H. Holcombe.

Executive committee council of administration—Colonel S. C. James, Colonel L. W. Collins, General J. W. Hersey, General W. H. Armstrong, Colonel J. C. Whinnans.

General George W. Cook, chairman of the Denver executive committee.  
National Association of Civil War Musicians' Drum and Fife corps.  
Disabled national officers in carriages.

The various state departments.  
Light showers had fallen during the night but the weather cleared this morning and the annual Grand Army parade never taken place under more favorable auspices.

Three hours were consumed by the procession in passing the grandstand. Colonel Harper Moorhead, chairman of the parade committee, stated that 15,000 members of the Grand Army participated in the parade. Kansas carried the honors for the largest representation, having nearly 2500 men in line.

The most perfect arrangements possible for communication and emergency service were provided. Telephone stations were placed along the route of march and physicians were in attendance every block or so. A horseman was unseated by his frightened mount and in falling broke a finger. A person stationed near by had seen the accident and the man was astride his animal and in line again before the procession had progressed two blocks from where the accident occurred.

General Donaldson of St. Louis was stricken with heart failure and was carried to a hospital in an ambulance. His recovery is doubtful.

There were many interesting features connected with the parade, but one of the most impressive was the appearance of a confederate soldier in the gray uniform of his fighting days. A great cheer rent the air as he stood alone in a carriage waving the Stars and Stripes and bowing to the multitude.

Both the national encampment of the G. A. R. and the annual meeting of the Women's Relief corps will open tomorrow morning.

TOPEKA, Sept. 6.—Speaking of the passenger traffic to Denver from August 30 to September 4 on the Santa Fe line, General Passenger Agent Black said:

"The Santa Fe handled in those six days from points east and south of Newton 13,783, a daily average of 2297. There is only one other time within my memory that the road handled anywhere near as many people during the same time and that was in 1897, when the Christian Endeavor held its convention in California. At that time we handled some 14,700 passengers going West and brought back about 9000."

During the six days of the rush to Denver 497 cars were used and forty-two trains. These figures are for trains east of Newton. From that point west it is safe to say the twenty or twenty-five more cars were used.

## FRANCE AWAITS SULTAN'S REPLY

DEMONSTRATION TO BE BEGUN AGAINST MOROCCO.

Regardless of Outside Influences the Government is Determined to Have Redress.

PARIS, Sept. 6.—The government still awaits word from Fez regarding the Sultan's answer to the French ultimatum to Morocco, the time limit of which expired yesterday. It is the firm intention of the ministers to enforce redress without reference to outside influences. Unofficial intimations have been received that Germany does not sympathize with a French military demonstration against Morocco as it is likely to complicate the general Moroccan question on the eve of the conference. Nevertheless, there is a positive determination here to keep the redress of the outrage of the arrest of the Algerian citizen Bouzian entirely separate from the general question of Morocco and to put the question of redress to the end. Whether both military and naval de-

monstrations will be made awaits the final word from Fez. Both branches of the service are preparing for eventualities. The ineffectual result of the demonstration of the American squadron at Tangier to secure the release of Ion Perdicaris when held a prisoner by Raisuli inclines the authorities here to favor a military movement, striking into the interior instead of at the coast. The Temps this evening printed a dispatch from Tangier saying that couriers from Fez report that the Sultan is seeking to reconcile the French minister by granting partial satisfaction of the demands of France so as to prevent the departure of the legation.

WASHINGTON, Aug. 31.—The peace news was received without enthusiasm in the chief centers of Russian provinces. There is a general feeling of chagrin that Japan has been deprived of the rightful fruits of victory and there is disappointment, especially at the fact that permanent security from Russian aggression has not been secured. The diplomatic failure is considered to be due to the negotiations commencing prematurely.

## KAISER GRACIOUS TO CONGRESSMEN

VISITING AMERICANS RECEIVED AT THE PALACE.

Congressman Barchfeld of New York Would be in the Guards if a German.

BERLIN, Sept. 5.—Emperor William received Congressman Littlefield of Maine, Barthold of Missouri, Waldo of New York, McNary of Massachusetts, Norris of Nebraska and Barchfeld of New York today. The emperor sent court carriages for them and they were assigned to positions next to the imperial suite, at the autumn review of the Potsdam and Berlin garrisons at Temple of Field. Secretary Dodge of the American embassy, and representative of the foreign office, accompanied them.

At the emperor's suggestion, Mrs. Waldo, Mrs. Barthold, Mrs. McNary and Mrs. Barchfeld were in carriages next to their husbands, but not in court equipages.

The congressmen, who have been attending the meeting of the international parliamentary union at Brussels, were driven after the parade in the train of the empress through the streets lined by crowds to the palace. The emperor marched over the same route at the head of a regiment. When the emperor entered the hall where the party awaited him he spoke to Dodge and said:

"Introduce me to these gentlemen." His majesty talked with each member of the party and to the congressmen collectively. To Barchfeld, who is about six feet, six inches in height, he said: "If you were a German I would have you in my guards."

A variety of subjects were touched upon during the audience and the emperor earnestly complimented his visitors on President Roosevelt's peace work, referring to it much as he did to Congressman William Allen Smith of Michigan on Saturday. Some one spoke of traveling in Germany and said he thought the German railroads shook more than the American.

"Perhaps so," said the emperor, "that is because we cannot afford to have the ties so close together."

The audience lasted about twenty minutes.

The Lokol Anzeiger describes Emperor William and the congressmen as joking together.

"You are from the state of cyclones," said the emperor to Littlefield.

"Oh, no, your majesty," they come from Mr. Norris' state, Nebraska," said Littlefield.

"Nebraska," said Norris, energetically, "is the most fruitful soil in the world and the loveliest climate."

The emperor, talking seriously, alluded to the situation of the world following the Russo-Japanese war. He said he had observed with satisfaction that the United States was building up its navy.

**NEW VACATION TRIP**

Owing to a delay in preparing one of the contracts, the raisin meeting did not take place yesterday, but will be held today. The growers' representatives and the packers did not come down from San Francisco, but are expected this morning.

Mr. E. Shumaker left a 63 pound "Pride of Georgia" watermelon as a present to the Republican business office employees. This melon was grown on his ranch 11 miles west of Fresno; and is one of the finest melons that has been brought to town this year.

The Park Commission met yesterday with Johannes Reimers, the consulting gardener in charge of the park. There was no business before the board except the approval of bills. The planting for this year has all been done, and there is little for the commission to do now except to "watch 'em grow."

Police Officer Joe Coyle reports that his five year old daughter, who was accidentally shot Sunday at the San Joaquin river, is resting comfortably and taking nourishment. As she is in full possession of her faculties, it is now known that the brain was not affected. The eye was injured by the wound, but it will be saved. Altogether little Miss Coyle escaped very fortunately.

Shasta Retreat Tavern, one mile from Shasta Springs, in the best region of the Sacramento Canyon, will be open this year till September first. Excellent fishing in Sacramento river flowing through the grounds. Seven Shasta Soda Springs on place. Plunge swimming baths. Service in Tavern perfect, and rates from \$12 per week up. Families and parties on special terms.

To my Patrons and the Public in general—I desire to say that I have purchased the whole of the Fresno Scavenger company, and am now the sole owner thereof, and I have added another wagon, and have secured competent men to operate the same, and am now prepared to do more and better service than ever, and most respectfully solicit the continuance of your favors. Respectfully, A. G. Leveque. Phone Main 524.

Chamber of Commerce Meeting. A meeting of the executive committee of the Chamber of Commerce should have been held last evening, but it was impossible to obtain a quorum. Secretary Staniford stated last evening that it was desired to have a special meeting of important matters. The regular meeting of the entire chamber is to be held next Wednesday evening, September 13th.

### DIED.

Funeral this afternoon at 2 o'clock from Krieb church on South E street, interment, Mountain View cemetery.

### BURN.

CLARK—At No. 1845 G street, Fresno, September 6, 1905, to the wife of W. H. Clark, a son.

### MARRIED.

TATMAN-SCHWARTZ—At No. 130 Coast avenue, September 6, 1905, J. C. Tatman and Alma N. Schwartz, Justice G. W. Smith officiating.

### PERSONAL MENTION.

J. M. Schmitz of Firebaugh is a guest at the Hughes hotel.

J. E. Pryor of Hanford was a visitor in town yesterday.

L. D. Scott of Selma was in town yesterday on business.

Dr. A. N. Loper is expected home today from Redondo beach.

E. M. Lohman and wife of Selma were in town yesterday on business.

Supervisor J. B. Johnson is home from his vacation in the mountains.

Rev. Andreasen of Easton has returned from a week's trip to Oregon.

Dr. A. N. Loper will be home today from a week's vacation in Los Angeles.

Mr. and Mrs. H. A. Huff have returned from their summer vacation at Catalina.

L. L. Andrews of Riverside is visiting his brother, George R. Andrews, of this city.

Hector Burness has returned from San Francisco where he had been for a few days.

John Cantwell of the Fresno Copper mine is in town for a few days on business.

Mr. and Mrs. Henry Johansen left yesterday for a short vacation in San Francisco.

Mrs. T. M. Hayden and daughter are home from their extended vacation at the coast.

V. H. M. Macdonald returned yesterday morning from a brief trip to San Francisco.

Mrs. R. N. Barstow and children have returned from their summer vacation in Santa Cruz.

Mr. and Mrs. George A. Armstrong returned Tuesday night from a month's visit to the coast.

Miss Violet Sheppard left for San Jose yesterday to make a short visit with friends and relatives.

Homer Katze has returned from a coast trip to Los Angeles and other Southern California points.

Mr. and Mrs. Henry Cordes of North Platte, Neb., are in town and are looking for a business location.

Mr. and Mrs. A. E. Kinsley and Miss Kinsley have returned from Santa Cruz, where they spent the summer.

Mrs. M. J. Gerard returned Tuesday night from Oakland, where she had been visiting her son, Roy Irwin.

Mr. and Mrs. Don Pardee Riggs returned yesterday from a two months' vacation in the Santa Cruz mountains.

Mrs. C. E. Turner returned from Portland last evening, where she had been visiting friends and relatives for two months.

Verl Brewbaker, son of officer Brewbaker, returned home last evening from Eugene, Oregon, where he had been visiting his grandparents.

E. E. Anderson, who has been here several days looking after his interests in the Scavenger, leaves tomorrow evening for Los Angeles.

Chester Warlow, son of Attorney G. L. Warlow, left yesterday morning for Booneville, Mo., where he will attend the Kemper Military academy.

J. W. Craycroft, father of Doctors W. W. and H. J. Craycroft, with Craycroft and daughter, Frank, arrived in this city last evening to make Fresno his home.

Mr. and Mrs. C. W. Froh have returned from the East. Mr. Froh having been offered the leadership of the Cumberland Presbyterian choir again, for the coming winter.

G. F. Staniford, secretary of the Chamber of Commerce, returned from San Francisco yesterday, where he has enjoyed a couple of days' rest and feels much improved.

Mrs. C. B. Gray and daughters arrived yesterday morning from Woodland. Mrs. Gray is a sister of Mrs. L. O. Stephens, and expects to teach here in the new kindergarten school.

The Ellegard of Olmstead has returned from a trip to the Portland area and to Eugene, Oregon, where he went as a delegate to the Danish Lutheran Convention held last week.

Postmaster J. W. Short returned on the Owl last night from Carmel-by-the-Sea, where he had been for two weeks with his family. Mrs. Short and children will return Saturday.

G. B. Sparlock of Oklahoma, son-in-law of J. C. Bowen, is in Fresno on a visit. He has just returned from the Portland area. His mother, Mrs. S. M. Sparlock, is a resident of Fresno.

G. O. Newman, chief engineer of the Huntington interests, arrived yesterday afternoon from Los Angeles and leaves today for Crane Valley to inspect the extensive operations in progress there.

The condition of J. H. White, the shoe merchant, continues critical. He suffered another perforation of the bowels yesterday, and last night was operated upon, which afforded him some relief.

A. V. Lisenby and family returned last night on the Owl from Portland, where they had taken in the exposition.

Mrs. D. H. Trowbridge and daughter came in on the Owl last night from a vacation spent in San Francisco.

Miss Alice E. Armstrong, who was librarian of the free library for nine years, has assumed the duty of librarian at the opening of the Nevada State university at Reno. It appears that the report telegraphed from Reno of opposition to her appointment was not well founded.

## BEET CONTRACTS

SEAGRAVES AND STANIFORD TO BEGIN CANVASS.

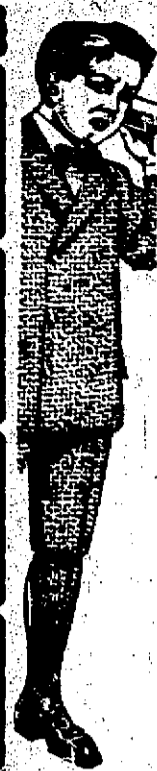

They Go to Lator Today—Men Back of Project Expected Monday—

Beets Stand Hot Weather.

C. L. Seagraves, who is here promoting the beet sugar industry, and George F. Staniford, secretary of the chamber of commerce, start out in the morning to visit the farmers and secure contracts with them to plant and care for a certain acreage of beets. The contracts will be made with the San Joaquin Valley Beet Sugar Company, the promoters residing upon a local corporation and named for their operation in this part of the state. Mr. Seagraves states that some of the chief men who are back of the project will be here Monday, and at that time the plans will probably be disclosed in detail.

That these men mean business is indicated by the fact that they are going to start seed here for experimental planting. Mr. Seagraves was out at the time looking over the field. For the last two weeks he has been looking up the experimental culture of the beets, and has sent samples for analyses, with the best results.

"We had just one fear," he stated yesterday, to a Republican reporter, "and that was that the beets would not stand the intense hot weather. We were afraid of those ten days you had after the Fourth—the record hot spell of Fresno. Now we are glad the weather was so hot, for it has furnished a thorough test whether beets can stand such a hot spell. Having stood that ten days they can survive any weather that

## School Opens Sept. Eleventh

SHE:—

Hello. Do you know that nearly all the boys and girls are going to wear caps this fall?

HE:—

Is that so? Who has the largest assortment in the city? I want the neatest one I can find.

## THE SUPERVISORS

### APPOINT STATISTICIANS TO ESTIMATE PRODUCTION.

Reject Liquor Applicant at Fowler-Tulare County Seeks Chaper

Oil

The chief matter before the Board of Supervisors yesterday was action upon the state law requiring counties to collect statistics of production for the use of the state agricultural society.

The members of the board determined to divide up the work in this county according to superior districts, appointing a statistician for each district. But two appointments were made yesterday.

For the work in the third district, which includes the city of Fresno, and the thickly settled colonies to the south, W. C. Guard was appointed upon motion of Supervisor J. M. Crawford.

For the work of gathering statistics in the fourth district, which includes Fowler and Selma, Supervisor Martin nominated J. J. Vanderburg of Selma, who is editor of the Selma Irrigator.

The compensation of the statisticians was fixed at \$4 a day for time devoted to the work, and expenses.

The selection of the appointees for the first, second and fifth districts will probably take place today.

The purpose of the state law authorizing this work is explained in the following letter from the secretary of the agricultural society:

"Chairman Board of Supervisors, Fresno County, Fresno, California:

"Dear Sir:—Please find herewith a copy of the law as it now is relating to the gathering of statistics by the boards of supervisors and transmitting them to the State Agricultural Society. The law leaves to the board of supervisors the discretion of the supervisors of each county. The blanks will be forwarded to your board and report must be made to this office previous to November 1st, for the year November 1, 1904, to November 1, 1905.

"In making a few suggestions for the agricultural society, I do so most respectfully and with the purpose alone of getting uniform action throughout the state. The purpose of this law is, primarily, to get accurate and complete data showing the productions of each county and the amount of such produce shipped out. To secure this data in an accurate and intelligent manner requires the services of intelligent men, interested in the welfare of their section of the state and county and with a practical knowledge of the industries of their particular locality.

"In the counties of large area and sparsely settled, we would suggest the selection of a man from each superior district who knows the people and their occupations. Each of these to send his report to the Board of Supervisors.

"In counties thickly settled, with good railroad facilities, one man could probably gather a complete report in the three months that intervene from August 1st, when blanks will be received by your board, to November 1st, when the law directs that the report shall be in the hands of the secretary of this board.

"Wishing to do your county full and exact justice, on behalf of the State Agricultural Society, I most respectfully ask each member of your honorable board to interest himself in seeing that correct statistics be returned from his district, and thus aid this society in its earnest endeavor to give to the people of California an annual report that can be absolutely relied upon as being a correct statement of the products of each county. Such a publication would be a valuable state document, and as a book of reference would be found in daily use in every newspaper office, library and organization for the promotion of our state welfare.

"When sent to prospective immigrants it will be our best advertisement, and yet it will contain no misleading statements.

"These annual reports are supplied free upon application to the undersigned.

"Again asking your earnest co-operation, I am,

"Very respectfully,

"ALBERT LINDLEY, Sec."

The blank books furnished to the county contain the following divisions: General statistics about property holdings; fruit, vegetable and nut products; trees and vines; fruit, vegetables, nuts, etc.; wines and other liquors; livestock industry; poultry and eggs; dairy industry; forest products; miscellaneous; manufacturing; productions shipped out of the county. No particular method of making the estimates is prescribed.

The work of these statisticians, if well done, will be welcomed by the Chamber of Commerce, as it will find much use for the figures. Previous attempts to get them through private agency have always failed to have any value, and it remains to be seen what regularly appointed officials can accomplish.

**Fowler Japanese Denied License.**

The matter of granting liquor licenses came up regularly for action yesterday, and the board considered the remonstrance of the score of Fowler residents against the granting of a license to a Japanese to sell liquor in their town. H. Sumida is the Oriental who would be carrying on in Fowler, and the remonstrants declared that his signatures were not given by those legally entitled to sign.

The board unanimously rejected the application.

Upon second reading, liquor licenses were granted to the following: J. W. Abbott and John Ryan of Coalinga and the Sanger Lumber company at Millwood.

Mrs. Mary Teara was allowed an increase of allowance from \$7.50 to \$12.50 a month for the support of her two fatherless children.

**County Tax Levy.**

As soon as the routine matters coming before the Board of Supervisors are through with, which will probably be by the first of next week, the board will be free to discuss matters connected with the annual tax levy. This must be made on the third Monday in the month, September 18th.

Among the matters that must be decided upon beforehand are whether the supervisors will allow a levy of \$12.50, as the county's share of building a road to the Kings River canyon, and whether they will levy a 2-cent tax for advertising purposes. The board has been notified that the state tax will be 49 cents on the \$100 this year, 4½ cents less than last.

**Valley Counties Want Cheap Oil.**

Chairman Martin of the board received yesterday a letter from Chairman Twaddle of Tulare County, suggesting that the counties of this valley unite in measures for securing cheaper railroad rates for oil for sprinkling roads.

The Tulare people would like to hear

about the matter this week. No action was taken, but as the matter has been spoken of several times, it is entirely probable that the board will accept the invitation to co-operate.

## LOCAL MARKETS

### FRUITS AND VEGETABLES

Limes—15c per dozen.  
Strawberries—10c box.  
Pears—4c per lb.  
Figs—5c per lb.  
Apples—3c 5c.

Lamb—10 12c per pound.

THE SEWAGE PLAN.

Does Lack of Drainage Render it Unfeasible?

Editor Republican: One of the essential points in the Hoxie-Burleigh sewage disposal proposition seems to have been omitted or slighted, namely, how are they to drain the land? and what are they going to do with the waste water? The vital part of the Hoxie-Burleigh proposition depends upon the nature of the land and the location of the Fresno Canal and Irrigation company canal, the drainage water will have to be run into the canal. In fact, the only feasible way of draining the land sought to be purchased is to run draining ditches into said canal. It should be borne in mind that part of the land sought to be purchased is a swampy and what is outside of the basin proper drains into said basin. The canal runs through the basin at the lowest points, closely following on old creek bed. Now the undersigned is assured by the Canal company, that nothing but pure river water may flow in its canal unless the water right holders below the point where foul and polluted water is sought to be introduced, request the company to allow foul and filthy water to flow in its canal. Thus it is seen that unless the canal company changes from the Hoxie-Burleigh scheme of sewage disposal is rendered abortive by not having any way of draining the land and no method of disposing of the surplus water.

It is practically impossible that a method of drainage can be found, unless some one discovers a way to make water run up hill. With the determined stand taken by the canal company backed by water right holders, as indicated above, this plan will have to be abandoned to say the least as impractical.

PHIL B. THORNTON.  
Fresno, September 6, 1905.

**OLD PEOPLE AND THEIR TROUBLES**

Old People have more of the pains, aches and discomforts of life than do the young. This is perfectly natural, because their blood is not so vigorous, nor their power of resistance so great, and troubles that a younger, healthy constitution could resist often afflict them.

During the civil war I contracted Catarrh and suffered with its effects for many years. I tried various remedies and doctors, but with no good result. I was told that I should use S. S. S. and read its carefully. I decided to try it. I began to improve and soon found myself a strong, healthy man. I am now 75 years of age, but my health is good, because I take an occasional bottle of S. S. S. It not only cures the blood and blood purifier, and I recommend it to those needing such a medicine.

Fordyce Ark. L. S. LOCKERIDGE.

Rheumatic pains, sleepless nights, sickle appetites, etc., are not imaginary with old people, as is sometimes thought. They need a medicine that will supply their blood with its lost vigor and build up and strengthen their constitutions. S. S. S. is the ideal remedy for Old People. It is made entirely from roots, herbs and barks, and does not injure the system in the least as do those medicines containing mineral ingredients. S. S. S. is gentle in its action, purifying the blood of all poisons and relieving the old age of its discomforts by supplying a robust, healthy constitution. It is the greatest of all tonics for increasing the appetite, toning up the stomach, promoting the digestion and building up the entire system.

## SUPERIOR COURT

### SUIT FOR VIOLATION OF TERMS OF LEASE.

Progress in Budget of Civil Matters at the Court House.

Yesterday.

Gustaf Anderson has brought suit against J. M. Crawford for possession of the south half of the southwest quarter and the southeast quarter of section 13, and the northeast quarter of section 22, T 13 S., R 28 E., Anderson says that he leased the property to Crawford with the understanding that the lessee was to build a saloon upon the premises, and run it on certain conditions, which have been violated. The owner now sues for possession and \$1000 damages for non-performance.

Lucius H. Norris has brought suit against the John Norris estate to quiet title to lot 31 of Norris colony.

Information for robbery were filed by the district attorney against John A. Jones and William Fitzgerald. These are the men arrested for highway robbery on Kearney avenue.

September 18th was fixed for hearing of the final account of the executor of Ramona Ryce, deceased.

**Papers in Civil Cases.**

Elmer Frame, to whom Burnett M. Caldwell conveyed the land, that his father is now suing for has filed an answer to Burnett M. Caldwell, Sr's complaint.

In the suit of the German Savings and Loan society against the executors of H. B. Choice, deceased, Judge Austin has issued an order of sale of part of block 84 of Fresno, return was made showing selling price of \$25,000.

Simon W. Henry and wife have made answer to the cross complaint of the Continental Building and Loan Association in the completed suit over a loan which began several months ago.

Defendant's demurrer has been overruled in the suit of George E. Whitaker against E. Gruing.

The California Wine Association's demurrer to certain portions of P. R. Leomhart's complaint against it, has been sustained.

At the request of the Fresno Commercial company, its complaint against Jos. J. Munn has been dismissed.

**Child Beater Sentenced.**

R. Bullock, arrested on the charge of battery on his 12-year old daughter, was given a jury trial, before Judge Walton Sanger yesterday and sentenced to 175 days in the county jail. Daniel R. Prince and Deputy District Attorney Kauke prosecuted.

**Chamberlain's Cough Remedy Aids Nature.**

Medicines that aid nature are always more effective. Chamberlain's Cough Remedy acts on this plan. It allays the cough, relieves the lungs, aids expectoration, opens the secretions, and aids nature in restoring the system to a healthy condition. Sold by all druggists.

**Good Pocket Knives**

Made by the leading American cutlery firms, in pearl sheath, bone and metal handles. Prices begin at 25c and go up by easy stage to several dollars each.

Come in and look them over.

Kings River Canyon Mining Company.

# AFTERMATH OF THE CONFERENCE

PORTSMOUTH ASSUMED ITS NORMAL WAY OF LIFE.

Peace Envoys Will Visit the President On Saturday—Baron Komura At Harvard.

PORTSMOUTH, N. H., Sept. 6.—Life in the picturesque city of Portsmouth, which for the past four weeks has centered about the doings of the peace conference, began slipping back into normal channels today with the departure of Witte and the Russian mission on a special train for New York and of the members of the Japanese entourage who did not go with Baron Komura last night. Witte was up early this morning and before he had taken breakfast a crowd had assembled on the hotel veranda to see him off. He shook hands with each of the persons gathered about him and when he started he was given cheers and cries of "adieu."

Minister Takahira, who headed the Japanese party, also was heartily cheered. At the navy yard the work has already begun of restoring the general store to its former condition. The furniture will be shipped back to Washington, including the table on which the treaty was signed. This piece of furniture may be preserved by the department of state and placed in the chain in which the plenipotentiaries sat. The building will, however, continue to be known as the "peace building."

Assistant Secretary of State Peirce will remain here this week to wind up the government's business in connection with the conference.

Captain Winslow, commanding the Mayflower, was among the last to take leave of Witte. The Russian plenipotentiary thanked Captain Winslow in his own and the emperor's name for the hospitality which Witte and his mission had enjoyed aboard the Mayflower, and presented him with an autograph photograph.

In perpetuation of the historic part which the navy yard has played in the last month, it has been suggested that a bronze tablet be placed on the walls of the peace building commemorative of the "peace of Portsmouth" brought about within its walls.

OYSTER BAY, Sept. 6.—Baron Komura and Minister Takahira, the Japanese plenipotentiaries, it was announced today by Secretary Loeb, will leave with the president next Saturday. They will come from New York on the naval yacht Sylph.

The same evening Witte and Baron de Rosen will dine at Sagamore Hill. They will come from Long Island City to Oyster Bay in a private car. The reason for the Russian envoys coming by train is because of Witte's preference for railroad travel.

The following are the copies of the telegrams received yesterday by the president from Baron Komura and from Witte and Baron de Rosen, announcing the signing of the peace treaty between Russia and Japan:

"To the President: I hasten to inform you that the treaty of peace has just been signed. Humanity is under a lasting debt of gratitude to you for the initiation and successful conclusion of the peace conference. I beg to be permitted to add my own thanks and sincere acknowledgments."

"KOMURA."

"Hotel Wentworth, Newcastle, N. H., Sept. 5, 1905. The President: We have the honor to inform you that we have this day signed the treaty of peace with Japan. It is not for us to thank you for what you have done in the cause of peace, as your noble and generous efforts have been fittingly acknowledged by our august sovereign. We can only express to you and to the people of the country our personal sentiment of profound gratitude for the cordial reception you have done us the honor to extend to us and which we have met with at the hands of the people of this country."

"WITTE."

"ROSEN."

BOSTON, Sept. 6.—Baron Komura, the Japanese chief peace envoy, and those of his party who came here last night were the guests at breakfast today of the Naniwa Dining Club, an association of leading Japanese merchants of this city. After breakfast, which was an informal affair, Baron Komura and his suite went to Harvard university, of which institution the baron is an alumnus.

The party was given in a tallboy directly to Harvard law school, where Professor John C. Gray of the law school, and J. D. Greene, secretary to President Eliot, met the visitors.

The baron and his party were entertained at luncheon at the Colonial club. Professor Gray presiding. This was an informal affair, the baron and others making brief speeches.

The party returned to their hotel in Boston and from there after a few minutes they proceeded to the South station, where they boarded the special train placed at their disposal for the journey to New York.

The train drew out at 2:35. As it started Baron Komura stood on the platform of the observation car in the rear of the train, and the cheering of the crowd was enthusiastic. The Japanese delegation gave a long and enthusiastic "banzai." Baron Komura waved his hat and bowed in response.

**Yellow Fever on Isthmus.**  
WASHINGTON, Sept. 6.—According to the summary of yellow fever conditions in Panama as compiled by the isthmian canal commission there were sixteen cases and two deaths from the disease on the canal zone during the month of August. There were fourteen cases and five deaths during this time in the republic of Panama, making the total on the isthmus for the month thirty cases and seven deaths.

**Neglected Colds.**  
Every part of the mucous membrane, the nose, throat, ears, head and lungs, etc., are subjected to disease and blight from neglected colds. Ballard's Horehound Syrup is a pleasant and effective remedy.  
W. Akendrick, Valley Mills, Tex. writes: I have used Ballard's Horehound Syrup for coughs and throat troubles; it is a pleasant and most effective remedy. Sold by Geo. H. Monroe, Special Agent.

## FOR SALE—MISCELLANEOUS

FOR SALE—Fresh cow, coming in few days, partly Jersey. Inquire 1529 I street.

FOR SALE—One six H.P. gasoline engine and one No. 3 pump. All complete, ready for use; cheap for cash. Fred W. Hansen, R. R. No. 2, Fresno, Elm avenue.

## LOWER OIL RATES

VISALIA SUPERVISORS START MOVE FOR REDUCTION.

The Heavy Freight Charges Make use of Petroleum for Roads Almost Prohibitive.

VISALIA, Sept. 6.—The Board of Supervisors now in session has passed a resolution favoring the calling of a convention to be composed of members of the Boards of Supervisors of all the counties in the valley from Kern to San Joaquin and others where oil is used in making roads, to meet and make a united effort to secure a substantial reduction in the tariff.

The present rate from Bakersfield to Visalia is a little less than 40 cents a barrel and the cost of the oil 28 cents. Paying out 200 barrels of the crude product is applied per mile to a new road the cost for oil and freight alone is \$134. Adding to this a probable cost of \$25 a mile for applying and a total of \$160 a mile is reached. Although road oiling has in general been completed for this year there being little done after September at least in this section—it is desired to arrange matters looking to next year's work. With the expected rise in the price of oil this fall the cost of roadmaking by this means would be prohibitive.

A letter has been addressed to the Fresno Board of Supervisors and others are being sent to other boards throughout the valley.

Antone Silva Lewis Jr., the Portuguese sixteen-year-old boy who recently confessed to hitting D. Lorde, a Frenchman with a rock near Goshen, and later robbing him of \$100 and a watch, was sentenced this morning by Judge Wallace to the Fresno School of Industry to remain until he is 21 years of age. In making the order Judge Wallace stated that while the present was an aggravat-

**CALIFORNIA WHEATINE** (Flaked Wheat Food. Cooks in 10 minutes.)

is the only food from which all the irritating fibre is removed, without diminishing its nutritive value. The latest triumph of scientific milling.

In two pound packages. Sealed to protect its purity and flavor. All good grocers. **Pacific Cereal Association** San Francisco, California

ed case, the policy of the law was not to send minors of the age of 16 or younger to the state prison. However, if he proves incorrigible at Preston he will be returned and sentence will then be passed upon him. Antone Silva Lewis, Sr., the father of the boy, a well-known and prosperous Portuguese, is reported quite ill at Goshen as the result of the arrest of his son and subsequent occurrences.

At the meeting of the board of city trustees last night the tax rate was fixed for the succeeding year, being \$2 on the \$100 valuation. The regular tax is 28 cents while the special tax for the various bond funds and the high school special is \$1.02.

The Board of Supervisors this morning granted a license to B. C. Russell to conduct a saloon at Goshen. The latter presented a petition signed by thirty-three registered voters out of a total of fifty-two in the precinct. The vote of the board was unanimous.

J. Sub Johnson left last night for San Francisco en route to Modesto county where he will spend some time.

Mrs. Dan McFadden and Mrs. Lee Kelsey left tonight for Stockton where they will visit for several days.

Mrs. Kate Belden and granddaughters, Enid and Rita Gosney, returned this morning from the southern part of the state, where they have been visiting. Principal G. R. Kleeberger of the High school and Mrs. Kleeberger returned yesterday from San Diego county, where they have been staying for several weeks.

**MADERA MATTERS.** Claude L. Pugh Passes Away in Oakland After Operation.

MADERA, Sept. 6.—News was received here yesterday of the death of a former Madera boy, Claude L. Pugh, who lived in Oakland. He died from the effects of an operation resorted to in the hope that it might give him relief from a trouble from which he had suffered some time and for which he had on two previous occasions submitted to operations. Mr. Pugh was 25 years of age.

Miss Flora Jackson arrived here yesterday from Santa Rosa, and left today for Sugar Pine.

Miss Lou Boling of San Francisco is visiting her cousin, A. B. Boling.

Mrs. W. C. Maze has gone to Santa Barbara to visit her mother.

Cook and family have returned from Capitola.

D. O. Barker left for Fresno yesterday to work there.

Mrs. T. Holding returned yesterday from Oakland.

R. C. Faust, the well known farmer from Sharon, was here yesterday.

Elmer Osborn returned from Newman yesterday to attend the High school.

D. Schonwandt of Fresno was a visitor here yesterday.

**FRED MOORE A HERO**

Rescued Fellow Teacher From Drowning in the Bay.

Fred T. Moore of Alameda, former principal of the Emerson school of this city and well-known here, rescued a fellow teacher from drowning last Saturday. He was in a yacht party in which were also R. H. Phelps and Clinton Miller, both former Fresno teachers. As a result of the exposure Moore was taken with an attack of incipient pneumonia, but he reported better.

The following dispatch from Vallejo gives an account of the heroic rescue: Superintendent Moore of the Alameda public schools will recover from the severe attack of pneumonia which he contracted during the time he was in the water when he rescued a teacher, C. J. Du Four, who fell overboard from the sailing yacht Bonita Saturday night, while anchored off this city.

Mr. Moore came up from Alameda Saturday night with a party of teachers on the yacht Bonita and while the vessel was anchored off the clubhouse of the Vallejo Yachting and Boating Club, Du Four was accidentally knocked off the vessel. Moore was below in the cabin and heard Du Four strike the water. He ran on deck and without an instant's hesitation plunged after the teacher, who was rapidly being swept away from the yacht in the strong current.

After a hard fight in the water, Moore finally succeeded in bringing Du Four back to the vessel and both men were assisted on deck in an exhausted condition. They were taken to the Bernard House and Dr. Bond was called. As a result of the exposure and chill and the struggle in the water, Superintendent Moore was stricken with fever and an attack of pneumonia and it was feared that he would die. His condition is much better today and he will recover. Du Four was in a state of utter exhaustion when he reached the hotel and the shock and fright affected his nerves, but he is rapidly recovering. The accident and rescue occurred in San Pablo bay.

Following is a list of the party on this yacht, Bonita: Fred T. Moore, superintendent of schools of Alameda; C. J. Du Four, principal of the Wilson school; R. H. Phelps, teacher in Alameda schools department; A. L. Grove, principal of Haight School; Dr. George C. Thompson, principal of the Alameda school department; McKee Sherrard of the Fireman's Fund Insurance Company of San Francisco; and Robert Colburn, manager of the E. J. Shattuck Ink company of San Francisco.

**FRT WORTH Bank Closed.** Sept. 6.—The Bank of Commerce, doing a usual business, voluntarily closed its doors today pending the action of creditors. The bank had \$100,000.

## PREPARING FOR NEW CONDITIONS

DECLARATION OF PEACE MAKES WORK IN ST. PETERSBURG.

Anglo-Japanese Treaty Does Not Appeal to Russian Sentiment—Vienna Honors Roosevelt.

ST. PETERSBURG, Sept. 6.—The news of the signing of the peace treaty resulted immediately in an unwonted outburst of active work at the foreign office. All the articles of the treaty are being copied today. Each ministerial department will be supplied with an official copy to the effect that every provision of the treaty shall be understood thoroughly by each minister, particularly in its bearing on the changes provided for by the treaty, which must be carried out by the different ministries and departments. The carrying out of the provisions will be proceeded with at once. Even today some orders to this effect were given.

ST. PETERSBURG, Sept. 6.—There is much comment in the morning papers on the Anglo-Japanese treaty, which it is claimed is not conducive to peace, because it upsets the balance of power in the Far East and makes Great Britain and Japan predominant. The New York Express expresses the opinion that it is directed against German designs in the Far East, while the Soviet declares that the treaty shuts out Russia from the Pacific and the open sea anywhere in Asia. The Bourse Gazette takes a similar view.

ST. PETERSBURG, Sept. 6.—Telegraphing to Emperor Nicholas under date of September 5, General Linvitch reported that the Japanese September 4th started to advance along the Mandchurian road and commenced constructing entrenchments, but retired after meeting the Russian artillery fire.

The general also reported an offensive movement by several battalions of Japanese, accompanied by cavalry and artillery in north Korea, September 3rd, but the result was not announced in time to be sent off in the dispatch to the emperor.

VIENNA, Sept. 6.—The municipal council proposes to perpetuate the memory of President Roosevelt's success in restoring peace by renaming a street Theodore Roosevelt strasse, and enabling the thanks of the city of Vienna. The proposal has been formally introduced and is set down for early consideration.

LONDON, Sept. 6.—The Anglo-Japanese treaty signed August 12 is not yet ready for promulgation, some formalities in printing, etc., having yet to be carried out. At the foreign office today it was said the treaty would be ready early next week, but before publication it would be communicated to the powers. Although the powers interested are not yet in possession of the terms of the treaty, their representatives in London express themselves as satisfied, as it is generally understood the treaty does not interfere in any way with existing rights.

**COURTS ARE LIGHT.**

A Neighborhood Row Aired in the Police Court.

Yesterday was not a very heavy day in the police court.

Harry Bromage, arrested for being drunk, was given five days.

Thomas Odell and Chester Summers were given ten days each on the lawn mower in the county park for vagrancy.

Thomas Mooney, a vag was given a fender and was told not to show up around town for thirty days.

Sam Carter said he was a hard working man, and as he had a good face the judge told him to hike to the grape vines.

Mrs. L. J. Sutton appeared before Judge Briggs for disturbing the peace of her neighbor, Mrs. F. E. Raynor on Tuesday afternoon. Several witnesses were called but knew very little of the case. Mrs. Raynor when asked how Mrs. Sutton had disturbed her peace, said it was by her passing constantly through her back yard to get to Mrs. Nichols' house. Tuesday she asked her to go around when she wanted to visit Mrs. Nichols and Mrs. Sutton said she would, whenever they paid her what was due. This ended the case and S. J. Hinds, attorney for the defendant, submitted the case to the judge who promptly discharged the defendant.

R. G. Whitton, the burglar captured by W. Rowe, was arraigned before Judge Briggs yesterday with bail fixed at \$1000. No time was set for his examination.

## W. C. T. U. DEBATE.

Work of Married Women and Single Women the Topic.

The W. C. T. U. held an interesting debate yesterday afternoon at the Y. W. C. A. building. The topic was, "Resolved, that our single women have done more for us than our married sisters. The vote tied.

Miss Dale read a lengthy paper on the help and advantages of married women. She spoke of the Congress of Mothers in Washington last March and quoted a line in President Roosevelt's speech. "The woman who is a good wife, a good mother is entitled to our respect as is no one else; but she is entitled to it only because and so long as she is worthy of it." Mrs. Dale added: "With shame we say it, that there are wives and mothers of today who are not a credit to their class. Far better would it have been had they remained in single blessedness, where they might have found a degree of usefulness instead of being a disgrace to womanhood."

Miss Hammond spoke on the single woman and her words were applauded by both sides. Mrs. Peck read a few lines on the work done by married women and also by single. She spoke of Miss Clara Barton, a single woman, well known to all and especially to the army and navy of the United States and also the armies of Russia, Japan and England. She is the originator of the Red Cross Society, and is loved by all. She was with the boys of the Spanish-American and Philippine war and also in China in the Boxer conflict; was in South Africa when the Boer war broke out and from there she went to the Russian-Japanese war, where she is at present. This closed the debate.

Miss Eva Somers then played a piano solo, "Laurel and the Rose," followed by an instrumental duet by Miss Eva Somers and Violet Dale, entitled, "Charge of the Uhlans." Both pieces were well rendered. Miss Mary Dale recited, "A Wife for a Farm."

Mary Carlson to Andrew Wilstrand, a grant of lots 9 to 16 in block V of Kingsburg; \$10.

C. L. Shock to L. A. Shock, a grant of lots 21 and 22 in block 4 of Pierce and Anderson addition to Fresno; a gift.

**NOT IN COLD STORAGE.**

But Perfectly Preserved by the Modern Art of Embalming.

The body of the late G. A. Baron is not in cold storage, as has been erroneously stated. Mr. Baron died on May 14th, was embalmed the same day at Shannon & Beall's undertaking parlors and kept two weeks, when it was buried in Mountain View cemetery. On June 5th it was exhumed in accordance with orders from the brother, P. A. Baron, and taken again to Shannon & Beall's, where it remains in perfect state of preservation. It is expected that it will be shipped to New York in a few days.

**Five Marriage Licenses Yesterday.**

There was a rush in the marriage department of the county clerk's office yesterday, with the result that five licenses were issued. The happy couples were as follows: Paul T. Johnson, aged 42 years, and Alice A. Short, aged 37, both of San Leandro; J. C. Tatum, aged 24, and Alma N. Schwartz, aged 20, both of Fresno; W. A. Montague of Orosi, aged 28, and Bertha Briggs of Reedley, aged 21; Bert Messinger, aged 31, and Mollie Cunningham, aged 25, both of Fresno; Nick Bono, aged 33, and Mary Williams, aged 40, both of Fresno.

# A Man Who Does Not Dodge the Unwelcome Tax Assessor; An Anomaly Among America's Multimillionaires

**T**HE recent silent acquiescence of Marshall Field in the assessment of his Cook county real estate holdings at \$30,000,000 and his personal property at \$10,000,000 for purposes of taxation is an admirable example for multimillionaires in general and especially for those among them who have refused the trick of dodging the assessor to an exact science. It is true enough that Mr. Field is a very rich man, richer perhaps than all the others save two, but the mere fact that he shows no inclination to question the dictum of the tax assessor and the additional fact that his nonresistance is esteemed good enough news to appear in every prominent journal in the country are abundant evidence that Marshall Field of Chicago is a variant from the species of millionaire which is becoming so common in America.

The Chicago merchant prince is not like the others. He who makes a sweeping arrangement of the class must house when he reaches the name of Marshall Field. His righteous indignation must yield, his bitter speech must become moderate and his accusing manner must soften. Here is a man whose record will bear the light of day. If the modern fashion of acquiring millions is a crime, he must be held guiltless, for he has employed none of them. There is no evidence that he ever bought or sold a dollar's worth of stock on a margin. His immense holdings have come through legitimate channels. Much of his giant accumulation has been derived from the profits of one of the largest and most extensively conducted mercantile enterprises ever established. Most of his wealth, however, has been gained by the rise of property, for he has always been a persistent buyer of real estate, and his luck has been marvelous. His wholesale and retail dry goods business is in excess of \$50,000,000 per annum. He manufactures a large percentage of the goods he sells, and the clatter of his looms is heard in the manufacturing centers of both hemispheres. He has factories in England, Ireland, Scotland, France, Italy, Spain, Germany, Austria, Russia and in China, Japan and India. His woolen mills furnish a market for the Australian woolgrower, and the revolutions of his spindles in South America have brought prosperity to many.

He is of striking appearance, delicate and refined looking rather than robust and self assertive. In manner he is as retiring and undemonstrative as if he were diffident. His habits are extremely simple and temperate. He eats with the appetite of an anchorite, and he sips a little wine with an air of protest. He has never acquired the tobacco habit, although he is charitable toward those who have been less fortunate. Best of all, he is utterly devoid of self consciousness and is singularly direct and unsuited in his manner.

Mr. Field is the most unostentatious and accessible person in his vast Chicago emporium. He has never adopted the grand lama method of dealing with his employees, which is so much in vogue nowadays. If the humblest cash boy in his establishment wishes to speak to him there is nothing to prevent except a previous engagement. His office is a plain box of a place fenced off in a corner of the big store in Chicago. He employs no watchful and able-bodied sentinel to give warning of the approach of some denizen of the outer world. Any one who wishes may make the attempt to come face

to face with this man of millions, and if he is too busy to be interviewed he will say so in such a kindly and convincing way that no one's sensibilities are ruffled. One has only to see Mr. Field in this office to understand immediately that he knows more about his big store than any other person. His faculty of concentration is simply

amazing. His army of 4,000 employees seems to be a unit in the development of his wishes. No item of the multiplex operations going on about him is too trivial to interest him. His ordinary business aspect is that of a calm, calculating machinist, intent on the movements of a vast number of wheels. But it is only in his State street establishment that Mr. Field dons the external trappings of a captain of industry. As soon as the business pressure is relaxed he relapses into his habitual reposeful sedateness—the manner of a country gentleman with literary tastes. He goes from his business to a rich and tasteful, but not ostentatious, home and is ready for and appreciative of all the comforts that a refined domesticity affords. He is not fond of what is popularly known as society, but he has many personal friends, and he is exceedingly loyal to them. One of the most remarkable things is that he has practically no enemies. It is a striking instance of "Those who know him love him and others do not hate."

One of Mr. Field's remarkable characteristics is the interest which he shows in the sayings and doings of all those who are in his employ. He seems to regard the grievance of a porter who has come to headquarters for redress as of equal importance with the report of one of his heads of department. An amusing instance of his accessibility and disposition to yield to the humor of a situation is afforded by the case of a messenger boy who, after many attempts to secure a raise, made up his mind to apply to "the old man" himself. "How much are you getting now?" Mr. Field asked the resolute youngster. "Four dollars a week, sir," the lad replied. "But that really isn't so bad. That is more than I was getting at your age," the great merchant said. "Yes, but you wasn't working for Marshall Field," the boy protested. Mr. Field was not proof against this subtle argument, and the boy was made happy by the desired increase in salary. This happened

years ago and Mr. Field made it his business to prove that the boy had a chance to prove himself worthy. Marshall Field's career has not been accentuated by acts of colossal benevolence such as have trumpeted around the world the deeds of some rich men, but he has already built for himself a more enduring memory in the hearts of all honest mankind. He stands today as the most noteworthy incarnation of mercantile probity. He is neither a Napoleon of finance on the one hand nor a Garfield at winning the love of his fellows on the other. He is sagacious, even shrewd, and prudent. He is liberal, broad minded and thoughtful. His chief characteristic, however, is his beautiful exemplification of the gentleman, the true gentleman, in business life. He is liberal, too, some of his gifts being the million dollar Columbian museum, the land upon which Chicago university is built and a beautiful public library for his native town. His private benefactions are believed to be larger than those of any man in America, but he insists upon silence.

Marshall Field was born in 1855 at Conway, Mass. His father was a farmer, but Marshall made up his mind that he would prefer to be a merchant. When he was in his early teens he went to Pittsfield and began the dry goods business as a clerk, remaining there for four years. Then he went to Chicago and entered a store in that city, serving as clerk for another four years. After that he was taken into the firm and continued with it until the great fire, which left him almost stranded. But he had made powerful friends, and they came to his assistance. He resumed business and was shortly on the highway to prosperity. At the present time his estate is reputed to reach the hundred million mark. Mrs. Field is the daughter of Robert Scott of Ironton, O. Both of their children—a son and a daughter—are married. The Fields are members of the Presbyterian church.

# Completion of the Great Tehuantepec Interoceanic Road; Within a Twelvemonth It Will Be In Full Operation

**W**HILE the attention of the American public has been fixed upon the acquisition and building of the great ocean waterway across the isthmus of Panama the republic of Mexico has been constructing a competing line of railway across the isthmus of Tehuantepec. This great enterprise is now practically ready for operation, the only unfinished portions being the harbor improvements at the terminals. These are being pushed vigorously, and everything will be ready for the traffic which is certain to yield an immense revenue long before the American canal is open for business.

The Mexican interoceanic line is not exactly a new project, although very little has been heard of it in the United States. A decade ago a railroad was built by the Mexican government from ocean to ocean, but it was such a sorry affair that nothing came of it, and it was eventually abandoned. An English engineer, Sir Westman D. Pearson, who has long been connected with various important enterprises looking toward the development of the republic and who is also the contractor in charge of the Long Island and Pennsylvania deep river tunnels at New York, made a tender of his services, backed by British capital. In the revolution of the route and the ocean terminals, President Diaz had long contemplated the building of the route, and although he would have preferred to have it done under Mexican auspices exclusively, he finally agreed to Sir Westman's proposition. As a result the Mexican government entered into a partnership contract with Pearson & Sons of London, and the new company assumed the title of the National Railroad Company of Tehuantepec.

With a working capital of \$5,000,000 furnished by the Mexican government work was begun at once. That was in 1898, and the enterprise has been prosecuted with such energy that it has been practically finished in seven years. By the terms of the contract the Pearson company is to manage the line for fifty years, receiving 37 1/2 per cent of the net proceeds for thirty-five years and 26 per cent thereafter. The entire length of the roadbed, 192 miles, was rebuilt, so that now the track is as smooth running as any on the continent. All the old makeshift bridges of the former line were demolished, and new steel structures of the most modern design were put up. So irregular is the surface of the country over which the line passes that no less than 900 steel bridges and stone culverts were required. Owing to the possibility of seismic disturbances, all of these structures had to be very carefully built.

The engineering difficulties of the line were great, but the improvements at the terminal ports presented still more perplexing problems. A brief survey of these two ports—Coatzacoalcas, on the Atlantic seaboard, and Salina Cruz, on the Pacific—will suggest some of the obstacles that Sir Westman and his fellow engineers had to face. Salina Cruz was absolutely destitute of natural conditions for protection. There was no harbor whatever, the streets of the town being less than five feet above the water. At this

place the harbor works are now very extensive. A breakwater over 3,000 feet in length has been constructed, forming an artificial harbor of about ninety acres. Within this was built a dock which affords 4,000 feet of quay space. Since the land upon which the old town stood was submerged to form the central basin a new town was built on modern principles. It contains regular streets and numerous open places and has a complete up to date water supply.

At Coatzacoalcas, a thriving little Mexican city of 3,000 inhabitants, there was another great natural obstacle to

At Coatzacoalcas, a thriving little Mexican city of 3,000 inhabitants, there was another great natural obstacle to

place the harbor works are now very extensive. A breakwater over 3,000 feet in length has been constructed, forming an artificial harbor of about ninety acres. Within this was built a dock which affords 4,000 feet of quay space. Since the land upon which the old town stood was submerged to form the central basin a new town was built on modern principles. It contains regular streets and numerous open places and has a complete up to date water supply.
